for effective team science

INSciTS Summer of Team Science Pre-Conference Event

This summer, as a prelude to our SciTS 2022, INSciTS is hosting periodic virtual seminars on new and developing areas of research in the science of team science. Our goal is to provide the SciTS community with an opportunity to engage in exciting areas of research in preparation for our more in-depth get together during the 2022 conference later in the summer. Below you'll find information on our upcoming session, along with information on how to register. Stay tuned for information on upcoming sessions. If you have any questions, please contact Maritza.Salazar@uci.edu.

INSciTS Summer Panel 1

Future Directions in Team Science: Exploring the Role of Big Data and Data Analytics

Wednesday, June 15, 2022

9:00am (PDT), 12:00noon (EDT), 6:00pm (CET)

Register for event here:

In this virtual panel, our experts will discuss novel data analytic techniques and their influence on the science of team science. They will discuss how these techniques can provide unique insights to scientific collaboration. Participants will have the opportunity to ask questions about big data techniques and how they can inform their own research interests.

Pranav Gupta, PhD, Carnegie Mellon University, Tepper School of Business

Fengli Xu, PhD, University of Chicago, Department of Sociology

William Barley, PhD, University of Illinois, Urbana-Champaign, Dept of Communications

Diego Gomez-Zara, Northwestern University, Kellogg School of Management
